To train our mind, we will have a particular way to use Lumosity. This is an app that allows you to play and learn skills simultaneously. Stimulate the brain to work quickly to handle the problems posed. Increase intelligence when facing complex issues in life. Become smarter so that you are no longer under too much pressure in life. Get ready to start this journey today. Lumosity is a product created by developer Lumos Labs from the United States. It is an educational application that supports the intellectual development of everyone. Overcome the weaknesses that they have to become more and more sensitive. Anyone can practice, regardless of age or job. Everything in the game is based on analysis and research from top scientists. Helps optimize the ability to train most intensively. Download Lumosity mod - Train your brain every day Lumosity will keep your brain active through built-in mini-games. Please select the ability you want to practice to be available from the list. Then choose one of the given tests to take. After completing all, the score will be calculated based on your progress. If it is still low, you need to improve more to get a good reflex. After practice, you will become more and more familiar with it. From there, you can increase the difficulty and surpass your limits. No need to do too much. Every day just spends 15 to 20 minutes practicing. Various types of exercises Our brain can do a lot of different things in life. Lumosity will categorize these jobs specifically for you to choose from. These tasks will include speed, memory, focus, adaptation, and problem-solving. There will be corresponding games in a job to cater to these themes. You will find it quite simple to control but highly intellectually to challenge when playing. Focus only on the processing capabilities of the brain without affecting other parts. You will gradually adapt to these games and become faster than before. The metrics will be aggregated to form your own LPI. Smart games Lumosity games are researched and created by scientists. It is based on research and is constantly being developed and transformed. Every day there will be new games updated to refresh the collection. Helps you train your mind from many different angles. You can increase its difficulty if you feel you are too easy to overcome these challenges. The number of points received after completing is your brain's level. From there, you can assess the most objective way about your processing ability. Practicing every day will help raise your stats significantly. Give a hint During the tests, the system will rely on that to give you advice. For example, find the possibility that has a lot of flaws and ask you to practice that part more. The app will provide you with at least three different skills to practice every day. Just any of these three skills will be enough for you to upgrade your intelligence. But if you stay in the premium version, you will get more in-depth advice. Not only that, the training skills provided are also more diverse. After a while, you will find yourself getting better and better. From there, become intelligent and creative in your activities. Support multiple languages Currently, Lumosity has supported many different languages around the world. From Japanese to languages like English, French, Portuguese, Spanish. This brings significant advantages to people on all other continents. It's a lot easier to get to the app without difficulty. Many people do not know English but can only speak their mother tongue. Shortly, there will be many other language updates to bring the application to the world. Create a new turning point in intellectual development for humankind. But please prioritize your English so that you can access more information. Having fun and training the brain is what Lumosity mod can do. Don't waste your time on tedious and frustrating games. A little practice every day will bring incredible abilities to you. Lumosity: Brain Training Mod Apk Lumosity's Cognitive Training Program is an interactive and fun way to learn more about your mind.
