You can usually expect to pay between \$100,000 and \$200,000 for an online business that is generating \$100,000 in annual revenue. For \$140,000, Radly in 2011 purchased CreativeLogicMedia.com, a custom web development site with a strong client base. The abstract reasoning test is one of the most widely used psychological evaluations around the world. It is offered at many recruitment centers for positions in the army, banking, government, administration and many more.The purpose of the abstract reasoning test is to gauge your mental agility, acuity, level of understanding, and deductive ability.The test uses diagrams, sequences, images, color games, and figures with different shapes and sizes to gauge your quick thinking skills and creativity.Moreover, it provides a clear perspective of your ability to handle problems with visual information. Thus, it can determine your level of perception, study and understanding in an impartial environment.It is one of the preferred evaluations due to its high level of reliability. An applicant with a high score on an abstract reasoning test has a better chance of adapting better to their work environment.This test is characterized by its objectivity. Due to its visual design, it can be taken by applicants of any age. It is also one of the fundamental assessments on the IQ test.It is also known as one of the most difficult psychometric tests. That's why it is extremely useful to practice these problems beforehand.Why you should make use of our free online abstract reasoning tests Here are some aspects you need to consider about the test:- The abstract reasoning test proves to be very difficult for applicants because of their confusing and complex systems. The objective of the recruiters is to select only the very best, so you must be able to work on these problems without hesitation.- Taking the test without prior practice is a fairly common mistake. Very few participants manage to pass the test without having studied previously.- Those who have a good background on the abstract reasoning test and the needed strategies are much more likely to do well and be accepted.- You will be able to use our test to study and understand the systems and diagrams which usually show up on the assessment.- This preparation will give you a giant leg up over the students who aren't taking the time to study and prepare, giving you a better opportunity for success.Download our abstract reasoning testWhile working on our online abstract reasoning practice tests you can also download them as a PDF file and take the tests like you would on exam day.Not convinced about our tests? An important consideration during your search is the pricing of a potential web investment. If you search for a site that has an old copyright, it could mean two things: either you found an abandoned site or the site owner hasn't updated the site's copyright. This can be done through tools such as Skype, Join.me, Screenleap or even through Google+ Hangouts. "The most important considerations in choosing the type and source of a legal agreement... are whether it reflects the parties' intentions and is understood by the parties to the transaction." These Co-Founders Are Using 'Quiet Confidence' to Flip the Script on Cutthroat Startup Culture and Make Their Mark on a \$46 Billion Industry My 7-Year-Old Daughter Started Selling Eggs. Related: How to Negotiate a Noncompete Agreement The extent to which you use formal legal services for this agreement, or templates such as those provided by website marketplaces, will naturally depend on the size and complexity of the transaction. Use your abstract reasoning skills to identify the missing figure. All sites should have copyright notices which are usually located at the bottom of the site. Interpret it as a quick game rather than a problem and the solution will reveal itself.-The biggest problem with the codes section is that sometimes it is very difficult to find the relationships between elements. Abstract reasoning generally does not require verbal or numerical reasoning although variations exist that do. There is no time limit. One of the best ways to understand and do well on the abstract reasoning test is through our practice tests -- which include both answers and explanations.Here's some tips that will help you as you're taking your test:-To solve sequences, you can start from the end of the sequence and move towards the beginning. Also, it's important that you evaluate the operation of each piece and its transformation into the next.-The missing pieces' problems are similar to puzzle pieces. Often, you only need the previous piece and the following piece to determine which one fits best.-The similarities problems do not always consist of congruent shapes. It poses images as well as hardly differentiable shapes and figures.- Directions: This part of the test is often times very confusing for first time test takers. It uses clues and pictures to indicate certain movements. In the end, you must determine the direction and final position of the figures and objects.- Codes: These use the same principles as cryptograms, where you will have to decode complete patterns and diagrams.Abstract reasoning tests with answers and explanationsNow that you know what you are going to face, you need to learn how to get ready. Any last minute cramming and anxiety won't do you any good so make sure to try to relax and get a good night's rest the night before.- Manage the pressure. Or, you could search for companies on online business marketplaces. An analogous situation is buying a house by going door-to-door in your desired neighborhood. But you will need to work with the seller to verify their claims regarding particulars like financials and traffic data. You need a lot of dedication and focus to do well on the abstract reasoning test.Also, try to do some outside research on the specific assessment itself. The difficulty of the tests depends on the agencies that are assigning them. Psychometric tests for pilots are much more difficult than those for office workers.Tips for the abstract reasoning testTo conclude, we have some tips that will be very helpful in the aptitude test center:- Take time working on the practice assessments so you boost your familiarity with the type of questions and can work faster.- Time yourself on each response so you can get a good feel of the required time management for your assessment.- Practice as much as possible, and trust in your training. One time-saving strategy is to search for abandoned sites by including terms like "Copyright 2009 + [your keyword]" or "copyright © 2009 + [your keyword]" in your search query. These sites allow you to compare and contrast sites based on different criteria such as revenue, traffic, age and niche. According to Justin Gilchrist, a Manchester, England-based industry consultant and founder of FlipFilter.com, a website sales analysis tool, website buyers are typically paying between 12 and 24 months revenue. Even for more modest acquisitions, buying an established online business, rather than starting one from scratch, gives the new owner a number of advantages -- not least of which include: instant customers, traffic and revenues. Most website marketplaces will provide free tools to help you through this process. Instead, try to arrange a time to do a screen share with the seller so that she can walk you through her site analytics and accounting systems. Facebook's recent \$1 billion acquisition of Instagram, the \$200 million forked out by Zynga to acquire Draw Something maker OMGPOP, and Twitter's purchase of Posterous.com shows the level of activity in buying online businesses right now -- especially when it comes to those with a strong and loyal audience. Use logic, and always try to be creative if at first it seems like nothing is working.How to do well on the abstract reasoning testRemember: Constant practice will make you an expert in solving the abstract reasoning test. Consequently, having our online practices and our PDF examples to work through will be a great resource.Do not forget to persevere and be disciplined in your studies. These assessments are usually very stressful but if you push your anxiety aside and stay calm and collected you will have a better chance of figuring it out. - Ignore or skip the question if you cannot find a solution with your first few attempts. An abstract reasoning test is a fundamental part of any assessment. See the identified pattern below:- Sequences: This section consists of discovering the continuity of a pattern using information from the figure such as geometric shapes, colors, and contours.- Missing pieces: This pattern is directly related to the previous one. This type of problem asks you to continue an interrupted sequence by deducing which piece fills in the blank.- Similarities: Shapes and figures are proposed without any apparent relationships. The similarities are sometimes hard to find since they can be direction of orientation, the number of sides, the number vertexes, as well as many others.- Differences: As the name implies, this tests the opposite quality of the previous section. Inspect Once you've spotted a few sites in your price range, you'll need to verify a seller's claims. Here are three steps for calling a ready-made site your own: Search Based on your desired business and industry, consider the following two options: Canvas the web for sites that match your criteria and contact the owners in hope of a sale. Especially tests that measure sector-specific abilities can have verbal and numerical test questions. Want to fast-track your online business? Most of the time they only repeat a number of features such as diagonal lines or figures, shadows, curves, and colors, etc.-The differences problems may require much more analysis. Explore the options with great care and consider all of the above factors.-Usually, this section uses puzzles. Even better? Just ask successful business investor, Adam Radly, who recently found himself enamored with the idea of getting into web-media services. It is perfectly normal to not be able to figure out all the problems, skip them and carry on and if you have time go back for a second look.-Take it easy and have fun.We wish you all the best with your exams and hope to hear from you soon!
