How to replace sharp el-1197piii ribbon

The Sharp EL-1801V is a personal printing calculator. The calculator is lightweight and compact in design, making it ideal for home office use. The EL-1801V has a printing speed of 2.1 lines per second and can display up to 12 digits on the screen, according to Sharp. Replacing the paper roll is an easy task, but make sure the paper is fed into the machine properly. Turn off the Sharp EL-1801V. Cut the end of the replacement paper roll for a fresh edge and to ensure a smooth feed. Do not tear the paper roll, as feeding a torn paper roll can cause a paper jam. Insert the cut edge into the paper opening on the back of the Sharp EL-1801V. Hold the paper roll so that the edge being fed into the machine is coming from the bottom of the roll. Turn the power on. Press the "Feed" button until the paper is fed through the unit. Lift the metal paper roll holder up. Slide the paper roll onto the paper-roll holder. With Monroe's M33X printing calculator ribbon cartridge you'll never have to worry about a messy installation process ever again! The NEW Monroe M33X Black/Red Ribbon Cartridge is the first-ever Monroe ribbon cartridge that can be used across an entire line of Monroe printing calculator models. This ribbon cartridge is compatible with all Monroe X Series printing calculators, featuring the highest standards in the calculator industry. Monroe's ribbon cartridges produce the darkest printing black/red ribbon cartridges on the market using our exclusive True Red™ color. True Red ink is the perfect red specifically made by Monroe, and doesn't have the orange tint you see in watered down versions from other brands. Our ribbon cartridges have the highest possible inking degree, and are virtually smudge-free! To maintain the darkest print, we recommend users change their Monroe M33X ribbon cartridges after replacing 2 paper tape rolls. Those who know, choose Monroe. For use in the following Monroe calculators; Monroe UltimateX ; Monroe 8145X ; Monroe 8130X ; Monroe 6120X ; Monroe 2020PlusX ; Monroe 122PDX Please Note: The Monroe M33X Black/Red Ribbon Cartridge is NOT compatible with any Monroe printing calculator model outside of the X Series. Click here to see a full list of compatible ribbon cartridges to find the right model for your Monroe calculator. The M33X will also work in the following brands and models: Canon MP41DHIH MP27-MG MP25DV MP25-MG MP11DX MP27DII CP1213DIII CP1200DII MP21DX Sharp Casio DR-270TM-BK FR-2650TM DR-210TM Victor Model 1230-4 1280-7 (Older models in the creme color. This cartridge will not fit the current black color model) 1240-3A 1460-4 To install the M33X Ribbon: To uninstall the M33X Ribbon: Comparing the Monroe P51S and M33X Ribbon Cartridges: Mike Prasch of Monroe System for Business reviews the differences between our previous generation ribbon cartridge, the Monroe P51S, and our current generation ribbon, the Monroe M33X. If you have any questions about this video or Monroe printing calculators and their supplies please contact us at 267-580-2600. The Sharp El-1801-P is a calculator that enables you to print results on paper. It is useful for making calculations for home and business purposes, with such features as a pre-tax key, a grand total key and a selling price entry key. After you use the calculator for a while, the roll of paper will run out and need to be replaced. You can still use the calculator when the paper runs out, but you won't be able to retain a paper copy of the results until you replace the roll of paper. Compatible Printers Adler Admate Allen R.C.
