ACT Practice Tests

English Section

This part contains 75 multiple-choice questions (MCQs) to be completed in 45 minutes. There are 5 passages in this segment each related to a different topic. Moreover, there are 15 questions in each portion. Your English grammar, knowledge, punctuation, sentence formation and writing abilities are evaluated. The students may score between 1 to 36 marks in this section depending on their capabilities.

Math Section

It contains 60 MCQs which are assigned only 60 minutes. These questions are further subdivided into 3 types: Higher Math (35 questions), Integrating Essential Skills (25 questions) and Modeling (22 questions). The Higher Math category is split into questions from Algebra, Geometry, and Function, each consisting of 8 questions. Other questions are from Numbers & Quantity, Probability, and Statistics.

Reading Section

This part is composed of 40 MCQs that must be finished within 35 minutes. There are 4 passages and 10 questions per passage. These belong to various subjects including printed studies, humanities, and life sciences. The questions should be marked according to the information provided in those passages rather than your own knowledge. The highest score maybe 40 in this section.

Science Section

This part includes 40 MCQs that need to be solved before 35 minutes are over meaning you have approximately 53 seconds per question. A student's abilities are analyzed in different ways like how well a student interprets a question, gives reasoning and how quickly a student attempts problem-solving questions. The questions in this section involve passages related to Biology, Physics, Chemistry and Earth Sciences.

Writing Section

In addition to 4 major subject areas, sometimes students choose to sit in the Writing segment too. This portion does not have MCQs in it rather it requires you to complete an essay in 40 minutes. If you have selected this option, you will be given extra time. It is highly recommended that you take this part of the ACT test since many top universities demand it.
