Complementary and Supplementary Angles Worksheet

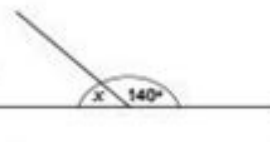

Name _____

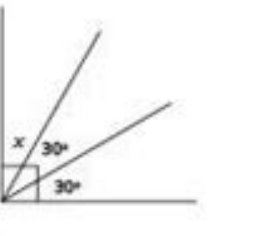

Date _____

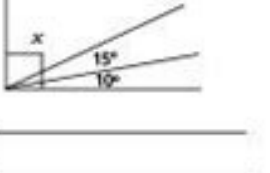

Complementary and Supplementary Angles

1. Find the missing value for each complementary and supplementary angle.

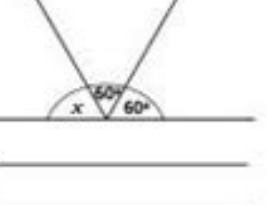

a) 

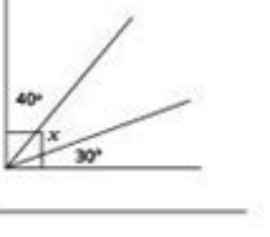

b) 

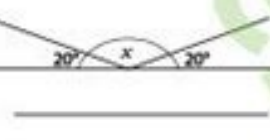

c) 

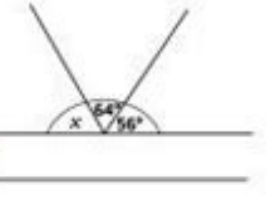

d) 

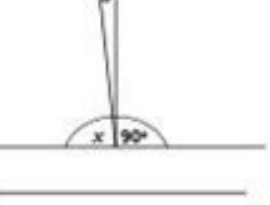

e) 

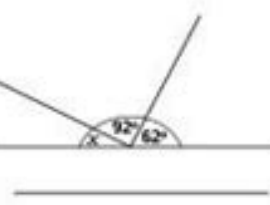

f) 

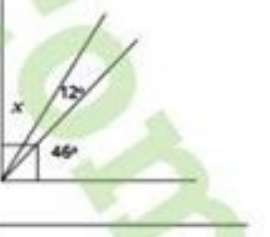

g) 

h) 

i) 

j) 

k) 

l) 

GEOMETRIC REASONING

Angles may not be to scale

Teach Starter

DIVISION - 3 DIGITS BY 2 DIGITS SHEET 1

Divide these 3 digit numbers by a 2 digit number with no remainders.

1) 14 $\overline{) 564}$

2) 21 $\overline{) 357}$

3) 33 $\overline{) 627}$

4) 25 $\overline{) 625}$

5) 17 $\overline{) 510}$

6) 24 $\overline{) 816}$

7) 42 $\overline{) 588}$

8) 34 $\overline{) 170}$

9) 18 $\overline{) 324}$

10) 54 $\overline{) 324}$

11) 24 $\overline{) 672}$

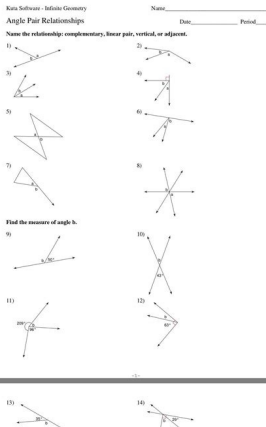

12) 31 $\overline{) 682}$

Coloring Worksheet

Measuring Angles Worksheets These Angles Worksheets are great for practicing measuring angles with a protractor. Classifying Angles Worksheets These Angles Worksheets are great for teaching the different classification of angles. Angle Pair Relationships Worksheets These Angles Worksheets are great for identifying angle pair relationships. You may select whole numbers or decimal numbers for the problems and configure the worksheet for 6, 8 or 10 problems. Naming Angles Worksheets These Angles Worksheets are great for teaching the correct nomenclature to identify angles and sides of angles. These worksheets will produce 9 problems per page. You may select whole numbers or decimal numbers for the problems and configure the worksheet for 6 or 8 problems. Finding Complementary Angles - Type 1 This complementary angles worksheet requires kids to solve diverse exercises in 3 sections. Find Corresponding Angles Worksheets These Angles Worksheets are great for practicing finding missing corresponding angles from various graphs. Producing Protractor Images Worksheets These Angles Worksheets are great for handouts or overhead projector where a protractor image is needed. You may select which figures to name, as well as the types of figures inscribed in the circles. Find Complementary Angles Worksheets These Angles Worksheets are great for practicing finding missing angles from complementary angle pairs. You may also print this protractor images on a piece of acetate to make a large size protractor for use in the classroom. Click here for More Geometry Worksheets Utilize our printable complementary and supplementary angles worksheets to help build your child's skill at identifying complementary and supplementary angles, finding the unknown angles, using algebraic expressions to find angular measures, and more. Identify if a Point is Interior or Exterior to an Angle Worksheets These Angles Worksheets are great for practicing identifying if a point is interior, exterior, or on the angle. This Angles Worksheet is great for practicing finding missing angles from supplementary angle pairs. Angle Addition Postulate Worksheets These Angles Worksheets are great for practicing the angle addition postulate. Inscribed Angles Angles Worksheets These Angles Worksheets will produce problems for identifying and working with inscribed angles and arcs. Get an grip on geometry with this helpful worksheet! Your student will learn the difference between complementary and supplementary angles, with plenty of practice problems to put his new knowledge to the test. Drawing Angles Worksheets These Angles Worksheets are great for practicing drawing angles with a protractor. You can select different variables to customize these Angles Worksheets for your needs. Find Alternate Angles Worksheets These Angles Worksheets are great for practicing finding missing alternate angles from various graphs. These Angles Worksheets are a great resource for children in 3rd Grade, 4th Grade, 5th Grade, 6th Grade, 7th Grade, and 8th Grade. Reading a Protractor Worksheets These Angles Worksheets are perfect for practicing reading and using a protractor to measure different angles. This worksheet is a great resources for the 5th, 6th Grade, 7th Grade, and 8th Grade. See in a set (7)View answersAdd to collectionAssign digitallyCommon Core State StandardsTexas Essential Knowledge and Skills (TEKS)Virginia Standards of Learning (SOL)Next Generation Science Standards (NGSS)BC Performance StandardsAlberta Program of StudiesThe Australian Curriculum (ACARA)The Victorian Curriculum (F-10)No standards associated with this content. Find All Angles Worksheets These Angles Worksheets are great for practicing finding missing angles on a graph using complementary, supplementary, vertical, alternate, and corresponding angle relationships. Finding Unknown Angles in a Complementary Pair Learn to find the unknown measure of each complementary angle with these worksheets. The Angles Worksheets are randomly created and will never repeat so you have an endless supply of quality Angles Worksheets to use in the classroom or at home. Find Supplementary Angles Worksheets These Angles Worksheets are great for practicing finding missing angles from supplementary angle pairs. As he works your child will get to practice solving for X. 7th grade kids keenly observe the right angles and equate them accordingly to find the measure of the unknown angle. You may select which figures to name, the number of points on the circle's perimeter, as well as the types of figures inscribed in the circles. Our Angles Worksheets are free to download, easy to use, and very flexible. You may select whole numbers or decimal numbers for the 6 problems that are generated per worksheet. Finding Unknown Angles in a Supplementary Pair Make finding the unknown measure of each supplementary angle a super-easy task! Observe the angles in each illustration and equate them accordingly to find the measure of the unknown angles. Find Vertical Angles Worksheets These Angles Worksheets are great for practicing finding missing vertical angles from vertical angle pairs. Arcs and Central Angles Worksheets These Angles Worksheets will produce problems for identifying and working with inscribed angles and arcs. We have classifying and naming angles, reading protractors and measuring angles, finding complementary, supplementary, vertical, alternate, corresponding angles and much more. These angles worksheets will produce 12 problems. These Angles Worksheets will produce one, two, four, or six images of a protractor per page. Click here for More Angles Worksheets Master your knowledge of supplementary angles with this geometry practice sheet! Remember that supplementary angles add up to make 180 degrees, or a straight line. Click here for a Detailed Description of all the Angles Worksheets. Math worksheets and visual curriculum A set of 12 orb robot task cards for students to work on problem-solving, critical thinking, and teamwork. You may select whole numbers or decimal numbers for the problems and configure the worksheet for 9, 12 or 15 problems. A highly effective practice tool for grade 6, grade 7, and grade 8, these resources lay a firm foundation for the topic of complementary and supplementary angles. Finding Supplementary Angles - Type 2 Get your students to skillfully find supplementary pairs, match the angles, and follow the rules of the given in-out box for correct answers! Reiterate how two supplementary angles make a straight angle. The student will identify adjacent, complementary, linear pair, or vertical angles. These angle worksheets will produce 9 problems per page. Finding Supplementary Angles - Type 1 This supplementary angles worksheet drives kids to find the pair whose sum does/doesn't equal 180°, match the angles that form supplementary angles when added, and complete in/out boxes. Finding Complementary Angles - Type 2 The name of the game is identifying complementary angles. Click the image to be taken to that Angles Worksheets. These angles worksheets will produce 20 problems for the student to identify whether the angle is acute, obtuse, right, or straight. These Angles Worksheets will produce two problems per page. Make use of our free samples and subscribe for instant access to a potpourri of pdf worksheets. Here is a graphic preview for all of the Angles Worksheets. These worksheets will produce 8 problems per page. Students must use the property that the sum of complementary angles is 90° to obtain their answers correctly. In this 6th grade exercise, identify the correct complementary pair by inference, match the complementary angles, and answer our in-out boxes. They will be asked to label the vertex and sides of angles and name all angles with a given vetex.
