Carry over subtraction worksheets for class 1

Subtraction Flashcards: Two-Digit with Regrouping Subtraction Flashcards: Two-Digit with RegroupingThis set of subtraction flashcards provides students with the opportunity to practice regrouping using whatever strategy works for them! Laminate a few sets of these flashcards and use them during independent work, small groups, or math centers! You are here: Home --> Worksheets --> Grade 1 subtraction In first grade, children subtract single-digit numbers with numbers from 0 to 10. They solve subtraction problems with a missing number and use addition to solve subtraction problems. Children also learn about 2-digit subtraction without borrowing (borrowing or regrouping is a topic for 2nd grade). These worksheets are generated automatically each time you click on a link. You can print the worksheet directly from your browser window, but first check how it looks like in the "Print Preview", if the worksheet does not fit the page in the Print Preview, adjust your margins, header, and footer in the Page Setup settings of the browser. Or, adjust the "scale" to 90% or less in the Print Preview. Some browsers may have "Print to fit" option, which will automatically scale the worksheet to be so small as to fit the printable area. The problem sheets are randomly generated, so you will get a different one just by refreshing the page in your browser (press F5). All worksheets come with an answer key. Jump to worksheets for: Single-digit subtraction Two-digit subtraction Single-digit subtraction Double-digit subtraction See also Worksheets for number bonds Grade 1 addition worksheets Subtraction worksheets for grade 2 If you wish to have more control on the options such as number of problems or font size or spacing of problems, or range of numbers, just click on these links to use the worksheet generators yourself. Our grade 1 subtraction worksheets provide practice in solving basic subtraction problems. Exercises begin with simple subtraction facts using pictures or number lines and progress to subtraction of 2-digit numbers in columns. Our grade 1 exercises do not require regrouping (or "borrowing"). Explore all of our subtraction worksheets, from subtracting by counting objects to subtracting large numbers in columns. K5 Learning offers free worksheets, flashcards and inexpensive workbooks for kids in kindergarten to grade 5. We help your children build good study habits and excel in school.
