It is published in eight large volumes (from 2015 onwards) which include six volumes containing all the countries of the world that have issued postage stamps, the Specialized Catalogue of the United and the specialized classic catalog of 1840-1940 (which covers the world during the first 100 years of emission of stamps). It is They are also produced on non-printable CD and DVD editions. The numbering system used by Scott to identify stamps is dominant among stamp collectors in the United States, Canada and Mexico. Company of STAMET & MOIN. , Issued from 1840 to the present day, splendidly illustrated with colored engravings and containing the current value of each variety. It was published in September 1868 by John Walter Scott, an early stamp trader in New York, and intended to list all the world's stamps, with prices for each. A notice inside

warns the reader that 'it is simply impossible for anyone who always has every stamp' in stock. The original catalogue has been reprinted. A small extract of 1910s Bolivia; Each stamp includes the SCOTT number, design, denomination, colour, unused and used prices, and additional annotations as required. As '1917' appears before '1913' it suggests that the related stamps are sometimes grouped logically instead of chronologically numbered. It evolved and collectors became more sophisticated. In addition to objective information on stamps, the catalogue includes price information based on market analysis and informed sales of the previous year. From 2006, and despite annual changes to save space, the catalog was larger than 5,000 pages. Scott's numbering system assigns simple numbers to regular mail stamps, and uses capital letter prefixes for special purpose types, such as 'B' for semi for semi- Postcards and 'C' for airmail. Numbers are usually consecutive; There are footprints between older stamps, where some later numbered types were renumbered, and between newer stamps where Scott has left the unassigned numbers in anticipation of additional stamps in a series. If there are more stamps than expected. Scott will add a letter MayA^CULA as a suffix, or if the change is very recent, will rename the stamps. Minor variations, such as tones or errors, obtain a minimum letter; Therefore, the above â € ™ c3a indicates a variation (error in this case) in which it appears as the third state seal AA © Reo American. The inconsistency with which Scott applied these licenses resulted in a demand from Krause Publications (editors of the Minkus catalog) for infringement of copyright. After Krause presented a defense, the demand was resolved outside the courts, and Krause continued to refer to the Scott numbers. [1] The editors of this, the dominant catalog in the United States, have a great influence on what is and is not considered a válido postal stamp. For example, in the DA © each of the Emirates, the United Rabs issued many stamps that were probably never sold in a post office, so Scott does not mention most of them. You have to go to a Michel catalog, for example, to see how it is described. However, the lack of a Scott list means that the majority of US distributors will refuse to trade with such stamps. The covers of the 2002 edition included art in seals. Similar way, Scott List Most stamps of Paws seized by the US government, and in some cases the list without catalog values. To some extent, this is inevitable, since the import prohibition means that the editors of Scott nor They can acquire copies of the seals that will be described. In addition, given that US distributors and collectors can not legally buy the seals, it is unlikely that they need the data. (Once again, interested persons usually use Michel or other catalogs instead.) Place.) policy changes with government policy; The stamps of Cuba, Libya and North Vietnam now appear in Scott's catalogues after an absence of a few years. Scott's dominance is such that collectors in the United States know many of the numbers by heart, and dealers only need to mention the number on their price lists. For example, the United States does not. 'C3A' is instantly recognized as the inverted Jenny, an inverted error seal from an American airmail. UU. Rare. Many were made from their own reference collection and were introduced into the six-volume 2002 edition as black and white images. Color images were introduced in 2003 into the classic specialized catalogue and in 2005 into the specialized catalogue of the United States. In 2006, colour images were included in Scott's main catalogues. Shortly after that The program, Scott Publishing received a letter from Hsien-Ming Meng, a doctor in Dayton, Ohio and Worldwide Collector of Mint Stamps with an almost complete collection. Dr. Meng offered to allow the scan of him his an offer that was enthusiastically accepted by Scott Publishing. The scans of Dr. Meng's collection began to appear in Volume 4 of the 2002 catalogue. Along with the generous access of many other collectors, Meng's collaboration has resulted in the creation of scanned images of all of Scott's stamps except 500 up to 2011. Meng, born in 1926, died on February 8, 2011.[2] Scott Publishing Co also produces a related volume that more comprehensively lists all the United States postage stamps and their postal history. It is generally known as the Scott Specialized and is considered by many to be the definitive one-volume reference to United States postage stamps. The catalogue offers more details than Volume I, with special emphasis on varieties and errors. Each year, a new edition of the catalogue is published, with a specific edition date that usually indicates that it was produced in the middle of the previous year. Semi-annual valuation supplements are also issued in spring and autumn.Scott Classic Specialized Catalogue: Stamps and Covers of the World is limited to stamps and covers that were produced between 1840 and 1940 or for the nations of the British Commonwealth up to 1952. It covers all stamp-producing nations in a single volume during those years.[3] Hugh Massey Clark, philatelic editor Theresa Maria Clark, philatelic editor of "Linn's Stamp News Puts Happy Face On Krause-Scott Lawsuit Settlement".
