## MEETING CHECKLIST

Before the Meeting:

- Make up a planning agenda before the meeting
- Make a copy of the agenda for everyone attending the meeting explaining the importance of what you are going to discuss
- For better input, give out the agenda a week in advance and have participants look it over and come up with comments and questions
- Send out a reminder the day before the meeting establishing a start and end time
- Is it an in-office meeting, or do you need to plan for accommodations?
  - ☐ Travel expenses
  - ☐ Hotel Rooms
  - ☐ Site rental for meeting
  - ☐ Food and beverages
  - ☐ Other: \_\_\_\_\_

During the Meeting:

- Make sure you start on time, do not wait for stragglers. It may help get everyone there on time if you start at an odd time like 9:05
- Designate a person to record minutes and maybe even someone to keep track of actual time to make sure you get through everything you set out to discuss at the meeting
- Stick to the agenda. If a new subject does come up that you feel needs to be addressed, create another meeting at a later date
- Have the time-keeper tell you when it is nearing the end of the meeting, so you can wrap it up
- Be sure to get any final thoughts out, and ask for concerns and make a skeleton plan for on meeting discussion
- Talk about a future meeting to deal with "extras" that came up during this meeting
- Adjourn the meeting
