Innisfree pomegranate mask review. Is innisfree face mask good. Is innisfree sheet mask good.

Hello everyoneKorean beauty products are getting a greater attention all over these days. Innisfree is one of the recent launched Korean brands. Innisfree has made its mark by bringing in its product and making it easily available online. Innisfree products claims to be nature oriented.This review is about one of the well-known and much spoken product. It's Innisfree its real squeeze mask in the variant pomegranate.Basic Product InfoPrice Rs 100Brand ClaimsInnisfree its real squeeze mask is a sheet mask with moisture from squeezed pomegranate leaves skin feeling firm and smooth.How to use it:After cleansing, use toner to refine skin texture.Unfold and place the mask on the face, avoiding eye and lip area.Leave on for 10-20 minutes.Discard the mask and gently pat for further absorption.My Experience with Innisfree It's Real Squeeze Mask PomegranateReadymade masks have always won my heart for they make my lazy days little easier. I have heard about sheet masks but haven't tried. When Innisfree was launched I picked a few with a dilemma as I felt 100 rs per sheet are expensive.These sheet masks were very fuss free and they come in a very cute packaging which carries a pomegranate print on it. The sheet mask is a microfiber which is soaked in a serum. This mask is a single usage mask.The sheet is to be spread on to the face and come with openings near the mouth and eyes areas. This mask fits perfectly on to the face and has to be left laid for 20 to 25 minutes. The mask is very convenient to use and you don't have to really sit stiff for the entire 20 to 25 minutes of your time. Unlike other masks I have tried from this range, this mask has a colourless serum. Other masks are soaked in a white lotion kind of serum. It has a mild fragrance which is actually soothing.On removing the mask, the skin is layered with the serum and the sheet can be patted on to the skin and massaged for 5 to 10 minutes.This sheet mask is my favourite of all and brightened my skin. I could feel the effect for 2 to 3 days and worth the money. Overall Performance of the ProductI'd say it's pretty good. It's easy to use and fuss free and its effect lasts 2-3 days. I feel this is more suitable for oily skin and you cannot expect decent Moisturization from this one. Be mindful of that and be sure to use a good moisturizer.Would I Recommend?If you have oily skin and can afford to spend Rs 100 on a face mask every week, I'd say go for it. Innisfree its Real Squeeze Mask Pomegranate Review 5 Hello everyone! Sheet masks have quite become a staple for me these days because I find them so handy. Not only are they easy-to-use, they also give that freshness and glow to the skin which could be a perfect pick-me-up when skin looks dull and tired. Today I will talk about the Innisfree It's Real Squeeze Mask in Pomegranate. I have already reviewed their Strawberry, Tea Tree and Blackberry in my previous posts, and it's time I bunch them together in my Sheet Mask Chronicles series. Product Description : What it is Get firm and radiant skin with the pomegranate It's real squeeze mask! 1. It's real squeeze mask - pomegranatePomegranate, known as the "king's fruit," helps your skin become radiant. 2. Jeju green complexThe Jeju green complex consists of green tea, tangerine, cactus, camellia leaves, and orchids to keep your skin healthy. 3. Triple-layered sheetWith its high water-retention capability, this triple-layered sheet fits tightly over the skin and helps it stay hydrated for an extended period. How to use 1. After washing your face, gently apply toner on your face to even out your skin texture.2. Then, apply the mask over your entire face, avoiding your eye and lip areas.3. Remove the mask after 10-20 minutes.4. Remove the mask and gently pat your face to allow the remaining essence to absorb into your skin. Ingredients of the Innisfree It's Real Squeeze Mask Pomegranate : Water, Glycerin, Butylene Glycol, Ethanol, Ethanol, Betaine, Citrus Paradisi (Grapefruit) Fruit Extract, Pomegranate Juice(200mg), PEG-60 Hydrogenated Castor Oil, Xanthan Gum, Carbomer, Ethylhexylglycerin, Adenosine, Potassium Hydroxide, Sodium Hyaluronate, Tangerine Peel Extract, Orchid Extract, The green Tea Extract, Camellia Leaf Extract, Prickly Pear Extract, Disodium EDTA, Phenoxyethanol, Fragrance Each of the masks in Innisfree It's Real Squeeze Mask range is priced at INR 100. I got mine from Nykaa. Innisfree It's Real Squeeze Mask Pomegranate My Overview of the Product : The Innisfree It's Real Squeeze Mask Pomegranate comes in a sleek white sachet with printed pomegranates, which is quite in line with the packaging of the rest other masks in this range. The triple-layered mask is drenched with serum and I apply it post cleansing and toning, as is directed. The mask has a standard fit with eye and mouth openings, but I have a round face and it doesn't cover me all the way up to the ears. I used the previous masks in winter when my skin would feel parched, and kept them on for around 40-45 minutes to let the complete serum soak in. But as we move towards the hotter months and the winds have started carrying some moisture, I find my T-zone getting oily while the rest of my face still feels dry. My oily-combination skin behaves real weird during the transition times between seasons, so I tend to be careful in handling it at this time. Therefore with the Innisfree It's Real Squeeze Mask Pomegranate, I did not risk keeping it on for more than 25 minutes. Please note that Innisfree asks to have it on for 10-15 minutes only. Innisfree It's Real Squeeze Mask Pomegranate The first thing anybody notices on putting the sheet mask on, is the cooling sensation that feels so refreshing on tired skin. The Innisfree It's Real Squeeze Mask Pomegranate doesn't have an overbearing fragrance and I quite like it. Although these sheet masks are comfortable enough to get you working through errands during the wear time, but I prefer to fake a slumber to really de-stress myself. After 25 minutes when I took it off, the mask had almost dried up on the forehead and chin regions but was still damp on the rest part. Nevertheless I discarded it because the last thing I'd want is to let it break out my skin. Thereafter I massaged the serum sticking to the surface of my skin in circular motions till it totally seeped in. Well that's the norm with these sheet masks. The immediate noticeable effect post using this mask is a bright, radiant complexion that looks young and feels fresh. The Innisfree It's Real Squeeze Mask Pomegranate did a good job in giving a good, taut feel to the skin as well, but that was only very temporary. What lasted was the radiance for the next 4 days. Furthermore, it sufficiently hydrated my skin and treated a dry patch on my cheek. The best part? It didn't break me out! Some More About the Ingredients . Innisfree It's Real Squeeze Mask Pomegranate - Ingredients Pomegranate Juice - Pomegranate is a good source of antioxidants and Vitamin C, fights skin ageing. It also has good moisturizing properties that nourish and hydrate the skin. Grapefruit Extract - has natural anti-microbials and anti-oxidants. Tangerine Peel Extract - beneficial for oily skin as it controls excessive oil secretion and treats acne and scars. Green Tea Extract - excellent for troubled skin; has anti-bacterial, anti-inflammatory properties and is a natural source of anti-oxidants; helps reduce pores and clean the skin from deep within. Camellia Leaf Extract - well-known for its skin soothing, anti-ageing properties; also contains fatty acids. Prickly Pear Extract - encourages skin renewal, stimulates collagen production, restores elasticity and is known for its quick absorbing and skin nourishing properties. Orchid Extract - has anti-ageing properties, minimizes appearance of fine lines, treats pigmentation and deeply nourishes and soothes the skin. The Jeju Green Complex comprising green tea, tangerine, camellia remains constant in Innisfree's It's Real Squeeze Mask series. The Final Verdict : The Innisfree It's Real Squeeze Mask Pomegranate does a beautiful job in firming and hydrating the skin. The triple layers in this mask hold on to a lot of moisture that is soaked in the skin relieving dryness. The toning and firming effect is little temporary, so this mask can be used just before a special occasion when you don't have the time to spare for a parlor ritual. This sheet mask imparts a vibrant, youthful look to the skin, and makes it feel recharged and nourished from within. Skin feels soft and plump to touch and as I always say, these sheet masks also impart a dewy glow to the skin that looks really nice. I also like the fact that it has a major percentage of natural ingredients and is comfortably priced as well. Moreover, it didn't break out my overly sensitive skin at this time, so I can actually build my trust on this one! My Rating : 4.5/5 Have you used any of the sheet masks from Innisfree? Which do you like the most? Anti-aging and antioxidants are just two of the many things that your skin can benefit from pomegranates. This moisturizing-essence type mask can leave your skin feeling plump and looking radiant as it's enriched with juicy pomegranates as per the brand's claims. I used one last night for the first time and I could immediately tell if it's a keeper or not. MORE FEATURES This thin sheet mask is made of eucalyptus, with improved adherence on skin, effectively delivers essence into skin.It's filled with Jeju green complex (green tea, tangerine, cactus, camellia leaves and orchid) and squeezed pomegranate for a smooth and radiant skin.Has additional anti-wrinkle function.HOW TO USE1. After cleansing, use toner to refine skin texture.2. Unfold and place the mask on the face, avoiding eye and lip area.3. Leave on for 10-20 minutes.4. Remove the mask and gently pat the remaining content for better absorption. PROS Light scentedAdheres well on my face.Comes with a handle on the top of the sheet mask to make application and removal convenient.Very moisturizing but not sticky at all (winter season).Gives a smoothening and glowy finish.Skin feels plump and looks a bit radiant after application. CONS Takes time to dry out.Upon reading the ingredients I found out that it contains alcohol so I decided to leave it on for just 10 minutes so it wouldn't further agitate the redness flare-up I was experiencing last night (due to the cold weather and long time heater exposure). I felt some tingling sensation the whole time which isn't normal for me. It also contains fragrance that's not really my thing. My skin is quite sensitive to alcohol and synthetic fragrance. Unfortunately, my skin doesn't need this one. But I'd recommend this to those who have normal skin type. Have you ever tried this one? Tell us about your experience in the comments!
